ANNEX A Section 65B Certificate — Indian Evidence Act

INVESTIGATION BRIEF

Subject Designation: **Kalyan Chakravarthy (Primary)**
Primary MSISDN: **919440123456**
Case Reference: **Ongole Tobacco Smuggling Syndicate (FIR 124/2026)**
Investigating Unit: **Prakasham District CID, Ongole**
Date of Report: **23 June 2026**
Classification: **RESTRICTED**

HIGH RISK
Score: 85/100

Based on 4 indicators

1. SUBJECT IDENTIFICATION

Primary MSISDN	919440123456
IMEI (Last Known)	490876123499999
IMEI (Previous)	359876123400001
Operator	BSNL / Jio
Circle	Andhra Pradesh
District (Primary)	Prakasham
Case File No.	ONG/CID/2026/AF9CE7
Analysis Period	01 Jun 2026 to 29 Jun 2026 (29 days)
CDR Records	75 records ingested
IPDR Records	338 records ingested

2. ACTIVE ALERTS SUMMARY

Alert Type	Detail	Detected On
IMEI SWAP	Handset changed: 359876123400001 → 490876123499999	2026-06-03 02:30
ANOMALY	Anomaly score -0.60	—
OTT USAGE	WhatsApp / Instagram encryption flag	2026-06-01 00:54
OTT USAGE	Telegram encryption flag	2026-06-01 08:52

3. CALL BEHAVIOUR METRICS

Metric	Value	Metric	Value
Total Calls	75	Total SMS	0
Unique Contacts	12	Avg Duration	161 sec (2.7 min)
Night Call Ratio	50.7%	Burst Score	6.72
Peak Call Hour	23:00–24:00	Silent Period	Day 4–5 (total silence)

During the analysis period of 01 Jun 2026 to 29 Jun 2026, the subject placed 75 outgoing calls and 0 SMS messages across 12 unique contact numbers. Call activity peaked between 23:00–24:00 hours. A burst pattern was recorded on Day 1 through Day 3 (56 calls in 72 hours), followed by complete communication silence on Day 4 and Day 5. Night-time call ratio was 50.7%, with 38 calls placed between 23:00 and 05:00 hours. An IMEI change was recorded on 03 Jun 2026, indicating possible handset replacement for evasion purposes.

3.1 Behavioural Anomaly Score Breakdown

Component	Observation	Points	Category
Night Call Activity	50.7% of calls (23:00–05:00)	+20	Behavioural
IMEI Device Change	Detected	+30	Device Evasion
Burst Call Pattern	Score 6.72 (>2.0 = anomalous)	+20	Temporal
Communication Blackout	Day 4–5 (complete silence)	+10	Evasion
Encrypted OTT Usage	338 IPDR sessions	+10	Encrypted Comms
Physical Convergence Events	0 event(s) detected	+0	Movement
TOTAL SCORE		90/100	HIGH RISK

4. CONTACT NETWORK ANALYSIS

4.1 Top Contact Numbers by Call Frequency

Rank	Number	Call Count	Total Duration	Classification
1	919963987654	11 calls	34 min	Venkatesh Prasad (co-accused)
2	917330198765	10 calls	25 min	COMMON HANDLER
3	919888000111	10 calls	23 min	COMMON HANDLER
4	919177234560	9 calls	26 min	COMMON HANDLER
5	919032456789	8 calls	18 min	COMMON HANDLER

4.2 Network Observation

The number 918341567890 was identified as a common contact appearing in the CDR of 3 subjects in this case (Kalyan Chakravarthy, Venkatesh Prasad, Subba Rao). This number received 7 calls during the analysis period but does not appear to be registered under any of the named subjects. It is recommended that subscriber details for this number be obtained from the concerned telecom service provider under Section 92 CrPC.

5. IMEI HISTORY

IMEI	First Recorded	Last Recorded	Status
359876123400001	2026-06-01 07:54	2026-06-02 23:59	SUPERSEDED
490876123499999	2026-06-03 02:30	2026-06-29 23:43	ACTIVE (last known)

■ IMEI SWAP RECORDED ON 2026-06-03 AT 02:30:00 HRS
Old handset (359876123400001) last seen 2026-06-02 at 23:59 hrs.
New handset (490876123499999) first seen 2026-06-03 at 02:30 hrs.
Time gap between last old and first new: 2 hr 30 min.
This change occurred at 02:30 hrs, consistent with covert handset replacement to evade electronic surveillance.

6. CELL TOWER MOVEMENT RECORD

Tower locations are approximate. Cell tower assignments are based on CDR records obtained from the telecom service provider. Actual physical location may vary within the tower's coverage radius.

Tower ID	Tower Name	District	Lat/Lon	First Visit	Last Visit	Dur
TWR-ONG-001	Ongole Central	Prakasham	15.5057°N 80.0499°E	01 Jun 07:54	03 Jun 22:05	62 hrs
TWR-CDD-001	Chirala	Prakasham	15.8167°N 80.3500°E	02 Jun 15:05	02 Jun 15:05	1 hr
Ongole Bus Stand	Ongole Bus Stand	Prakasham	15.5100°N 80.0450°E	07 Jun 11:23	25 Jun 23:02	443 hrs
Markapur Prakasham	Markapur Prakasham	Prakasham	15.7333°N 79.2667°E	09 Jun 16:09	29 Jun 23:43	487 hrs
Ongole Central	Ongole Central	Prakasham	15.5057°N 80.0499°E	11 Jun 16:31	25 Jun 23:27	342 hrs

Total towers visited: 5 across 1 district(s)

6.1 Geographic Summary

The subject's cellular activity was recorded across 5 cell towers in 1 district(s): Prakasham. Primary activity was concentrated in the Prakasham district, consistent with the subject's known operational area. Movement between Ongole Central and Ongole Central represents a displacement of approximately 121 km, recorded over 13 days.

8. OTT APPLICATION USAGE — INTERNET PROTOCOL DETAIL RECORD ANALYSIS

The following data was extracted from Internet Protocol Detail Records (IPDR) obtained from the telecom service provider. OTT application identification is based on destination IP address resolution against known application IP ranges.

App	Sessions	Data Volume	First Recorded	Last Recorded	Risk Note
Telegram	127	125.9 MB	2026-06-01	2026-06-30	End-to-end encrypted
WhatsApp / Instagram	211	545.0 MB	2026-06-01	2026-06-30	Standard browsing

NOTE: WhatsApp and Telegram communications employ end-to-end encryption.
Content of communications cannot be obtained from the telecom service provider. A separate legal process (mutual legal assistance or court order addressed to the respective platform) would be required to obtain message content.

9. INVESTIGATION RECOMMENDATIONS

- Obtain subscriber verification and purchase records for IMEI 490876123499999 from the handset manufacturer / retailer under Section 91 CrPC.
- Issue notice to telecom service provider for subscriber details of 919032456789 under Section 92 CrPC. This number was in contact with 3 subjects in the present case.
- If OTT communication content is required, initiate legal assistance process addressed to Meta Platforms Inc. (WhatsApp) and/or Telegram FZ LLC as applicable.
- The behavioural anomaly score of 85/100 warrants enhanced surveillance. The communication silence recorded on Day 4–5 may indicate subject was aware of surveillance. Cross-reference with physical surveillance logs for those dates.
- All CDR and IPDR data used in this report should be obtained formally from the telecom service provider under legal process and certified before use as evidence in any court proceedings.

10. CERTIFICATION AND SECURITY SIGNATURES

CERTIFICATION

This investigation brief has been prepared based on CDR/IPDR records obtained from the telecom service provider(s) for the period 01 Jun 2026 to 29 Jun 2026, and analysed using the TRACE Telecom Intelligence System deployed on a Restricted System Workstation at Prakasham District CID, Ongole, Andhra Pradesh.

The automated analysis has been reviewed and is submitted for the purpose of:

- Further investigation
- Obtaining court orders / production summons
- Inclusion in charge sheet (Section 173 CrPC)
- Intelligence sharing

All data must be independently verified and obtained through proper legal channels before use in court proceedings.

ANNEX A

CERTIFICATE UNDER SECTION 65B

Indian Evidence Act, 1872 (as amended by Information Technology Act, 2000)

I, the undersigned, being a responsible official of the Prakasham District Criminal Investigation Department, Andhra Pradesh Police, do hereby certify as follows pursuant to the requirements of Section 65B of the Indian Evidence Act, 1872:

1. The electronic records contained in this report, specifically the Call Detail Records (CDR) and Internet Protocol Detail Records (IPDR) pertaining to the mobile subscriber **919440123456** (IMEI: 490876123499999), were produced by the computer/server systems of the licensed telecom operator in the ordinary course of activities carried on by that computer.
2. Throughout the material period from **01 June 2026** to **29 June 2026**, the said computer systems were operating properly, and even if they were not operating properly for a period, such malfunction did not affect the electronic records or the accuracy of the contents.
3. The information contained in the electronic record was supplied to the computer in the ordinary course of the said activities of the telecom operator, and the record was produced from information stored in the computer during the ordinary course of such activities.
4. The CDR data was received through lawful interception / production order and was processed by the TRACE Telecom Intelligence System. The SHA-256 integrity hash of the CDR dataset is **9a8484356bf48db4ad7a01d232025f4c...** (full hash available on official record). This hash confirms that the data has not been altered from the time of receipt.
5. Total CDR records certified: **75**. Total IPDR records certified: **338**. Telecom Circle: **Andhra Pradesh**. Operator: **BSNL / Jio**.

Certified on: **23 June 2026** Place: **Ongole, Andhra Pradesh****Certifying Officer**

(Sub-Inspector / Inspector, Prakasham CID)

Verifying Officer

(DSP / SP Crime, Prakasham District)
